

1

Egg:

Where its
life begins

2

Hatchling:

Dragons hatch
from their
egg by eating
their way out

3

Wyrmling:

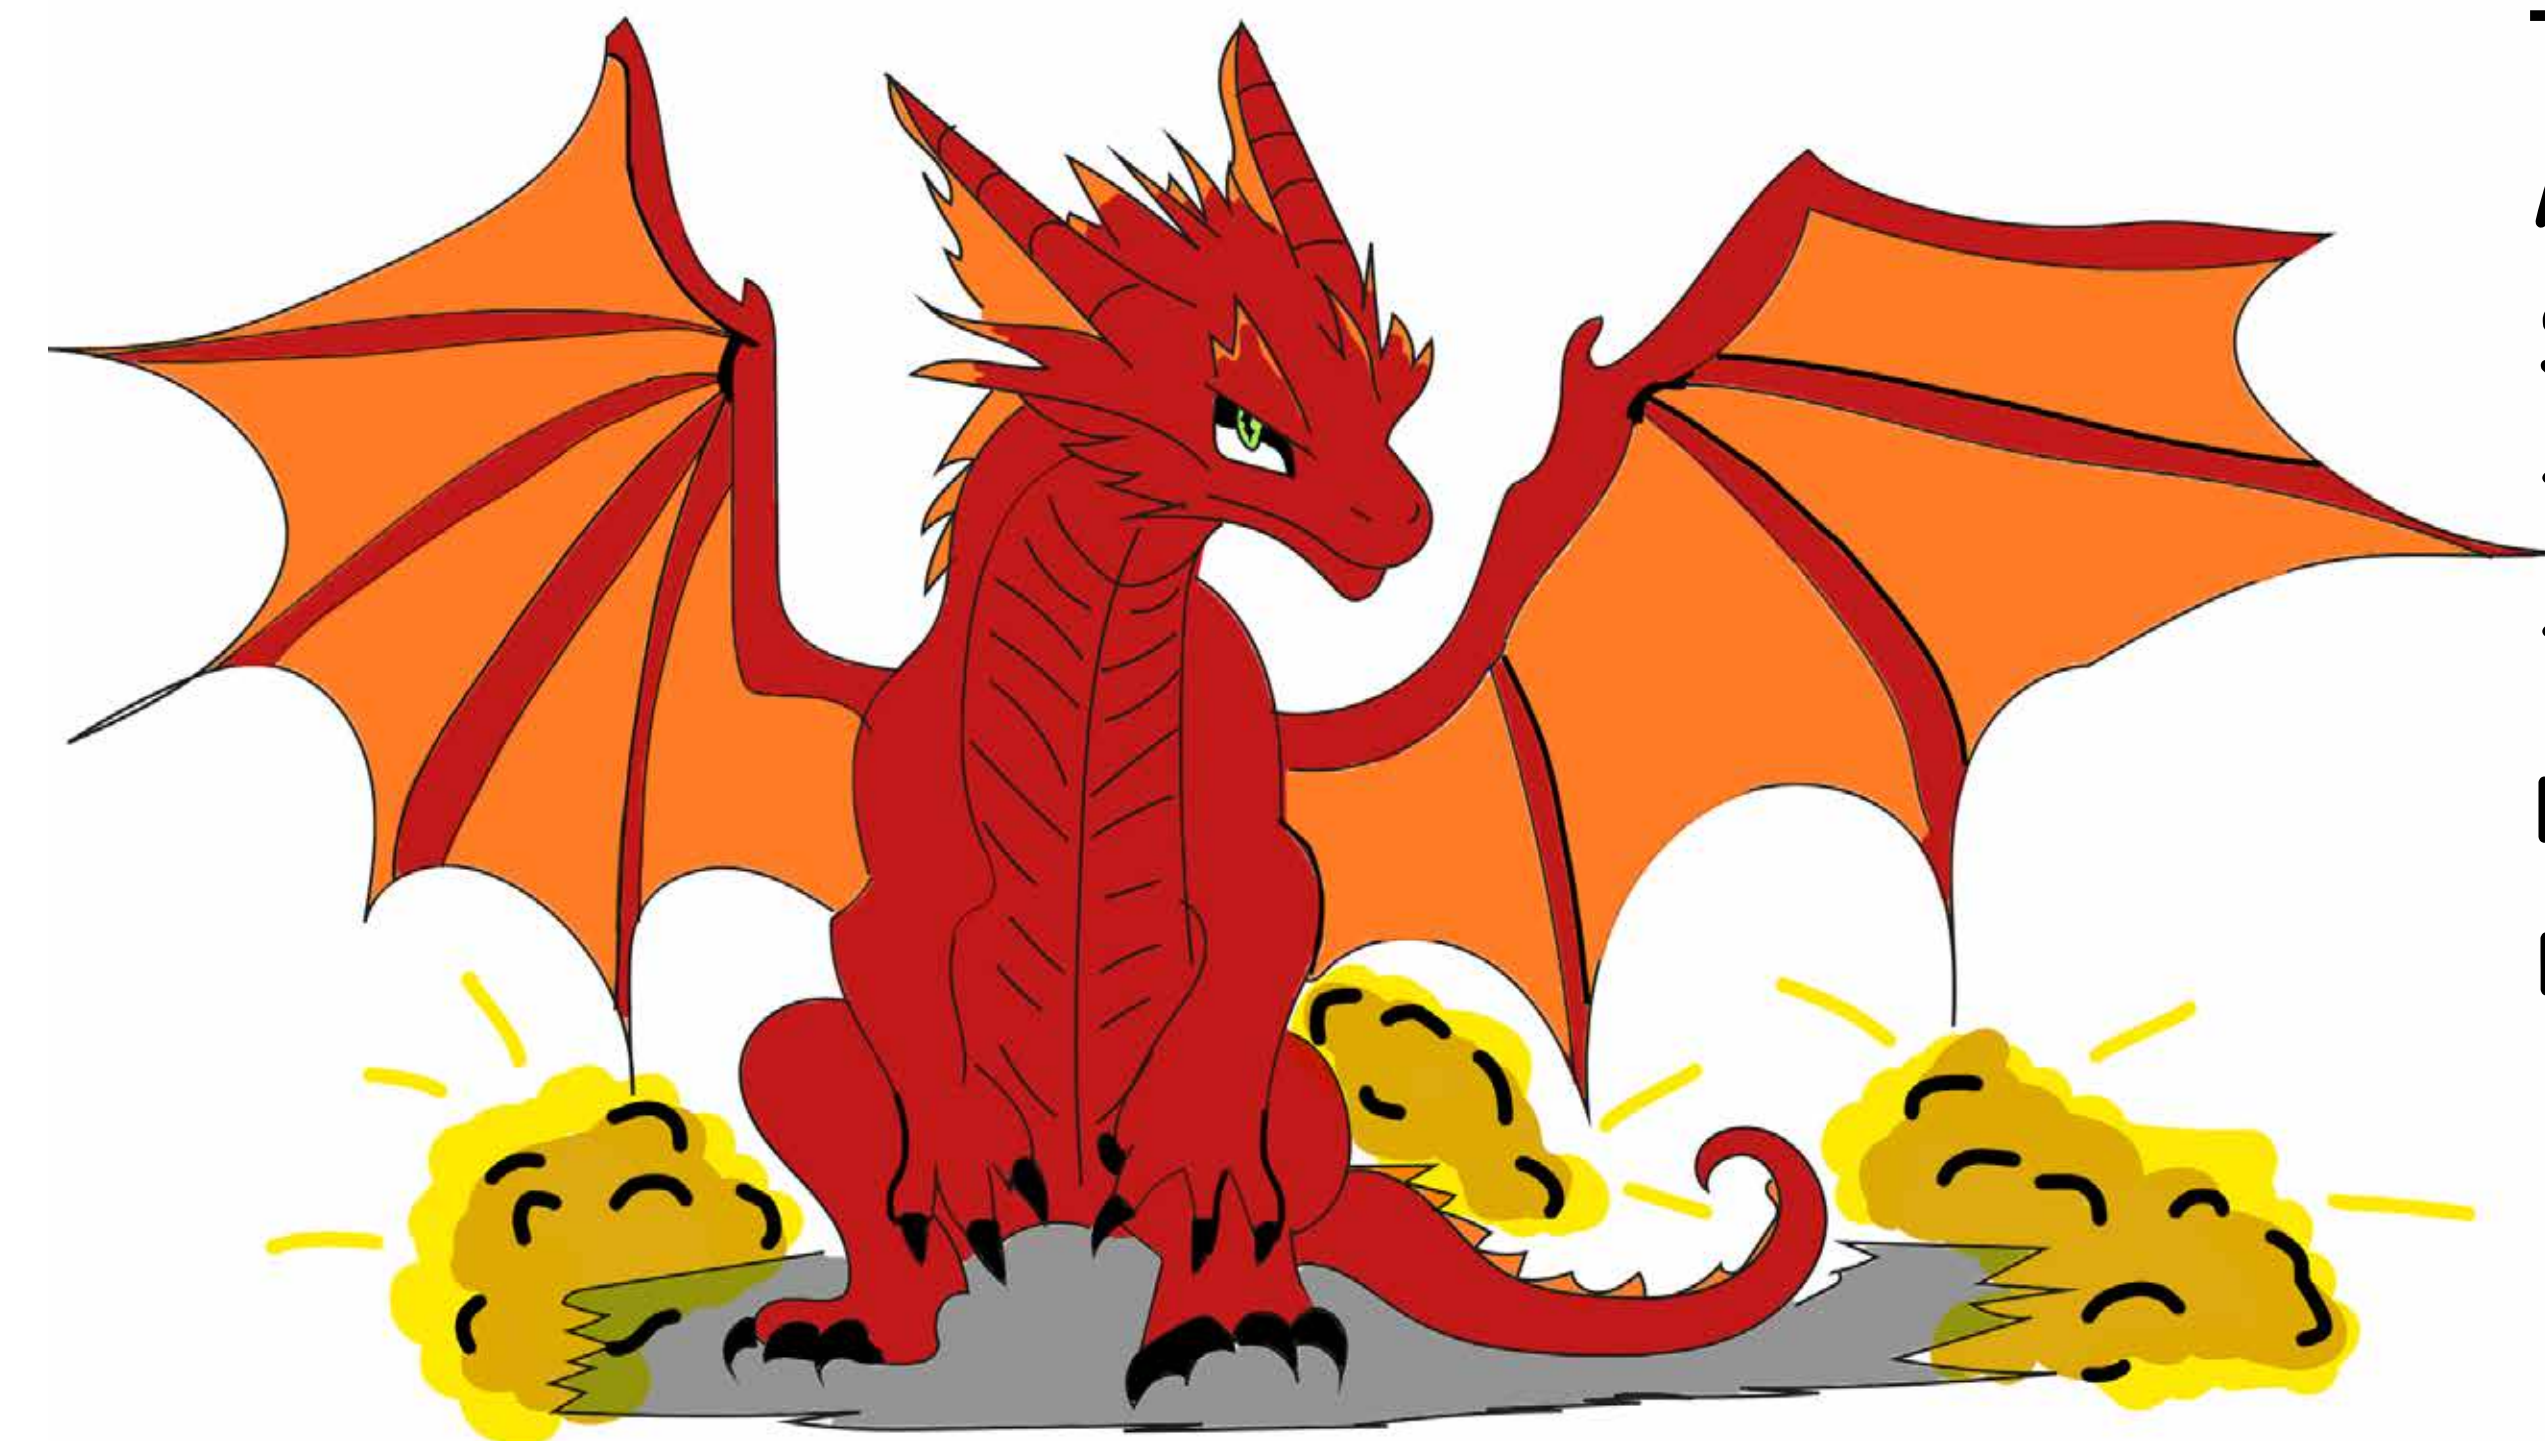

A newly hatched
Dragon. Even
though it is
small and weak,
it can fly after
a day or 2

4

Adult:

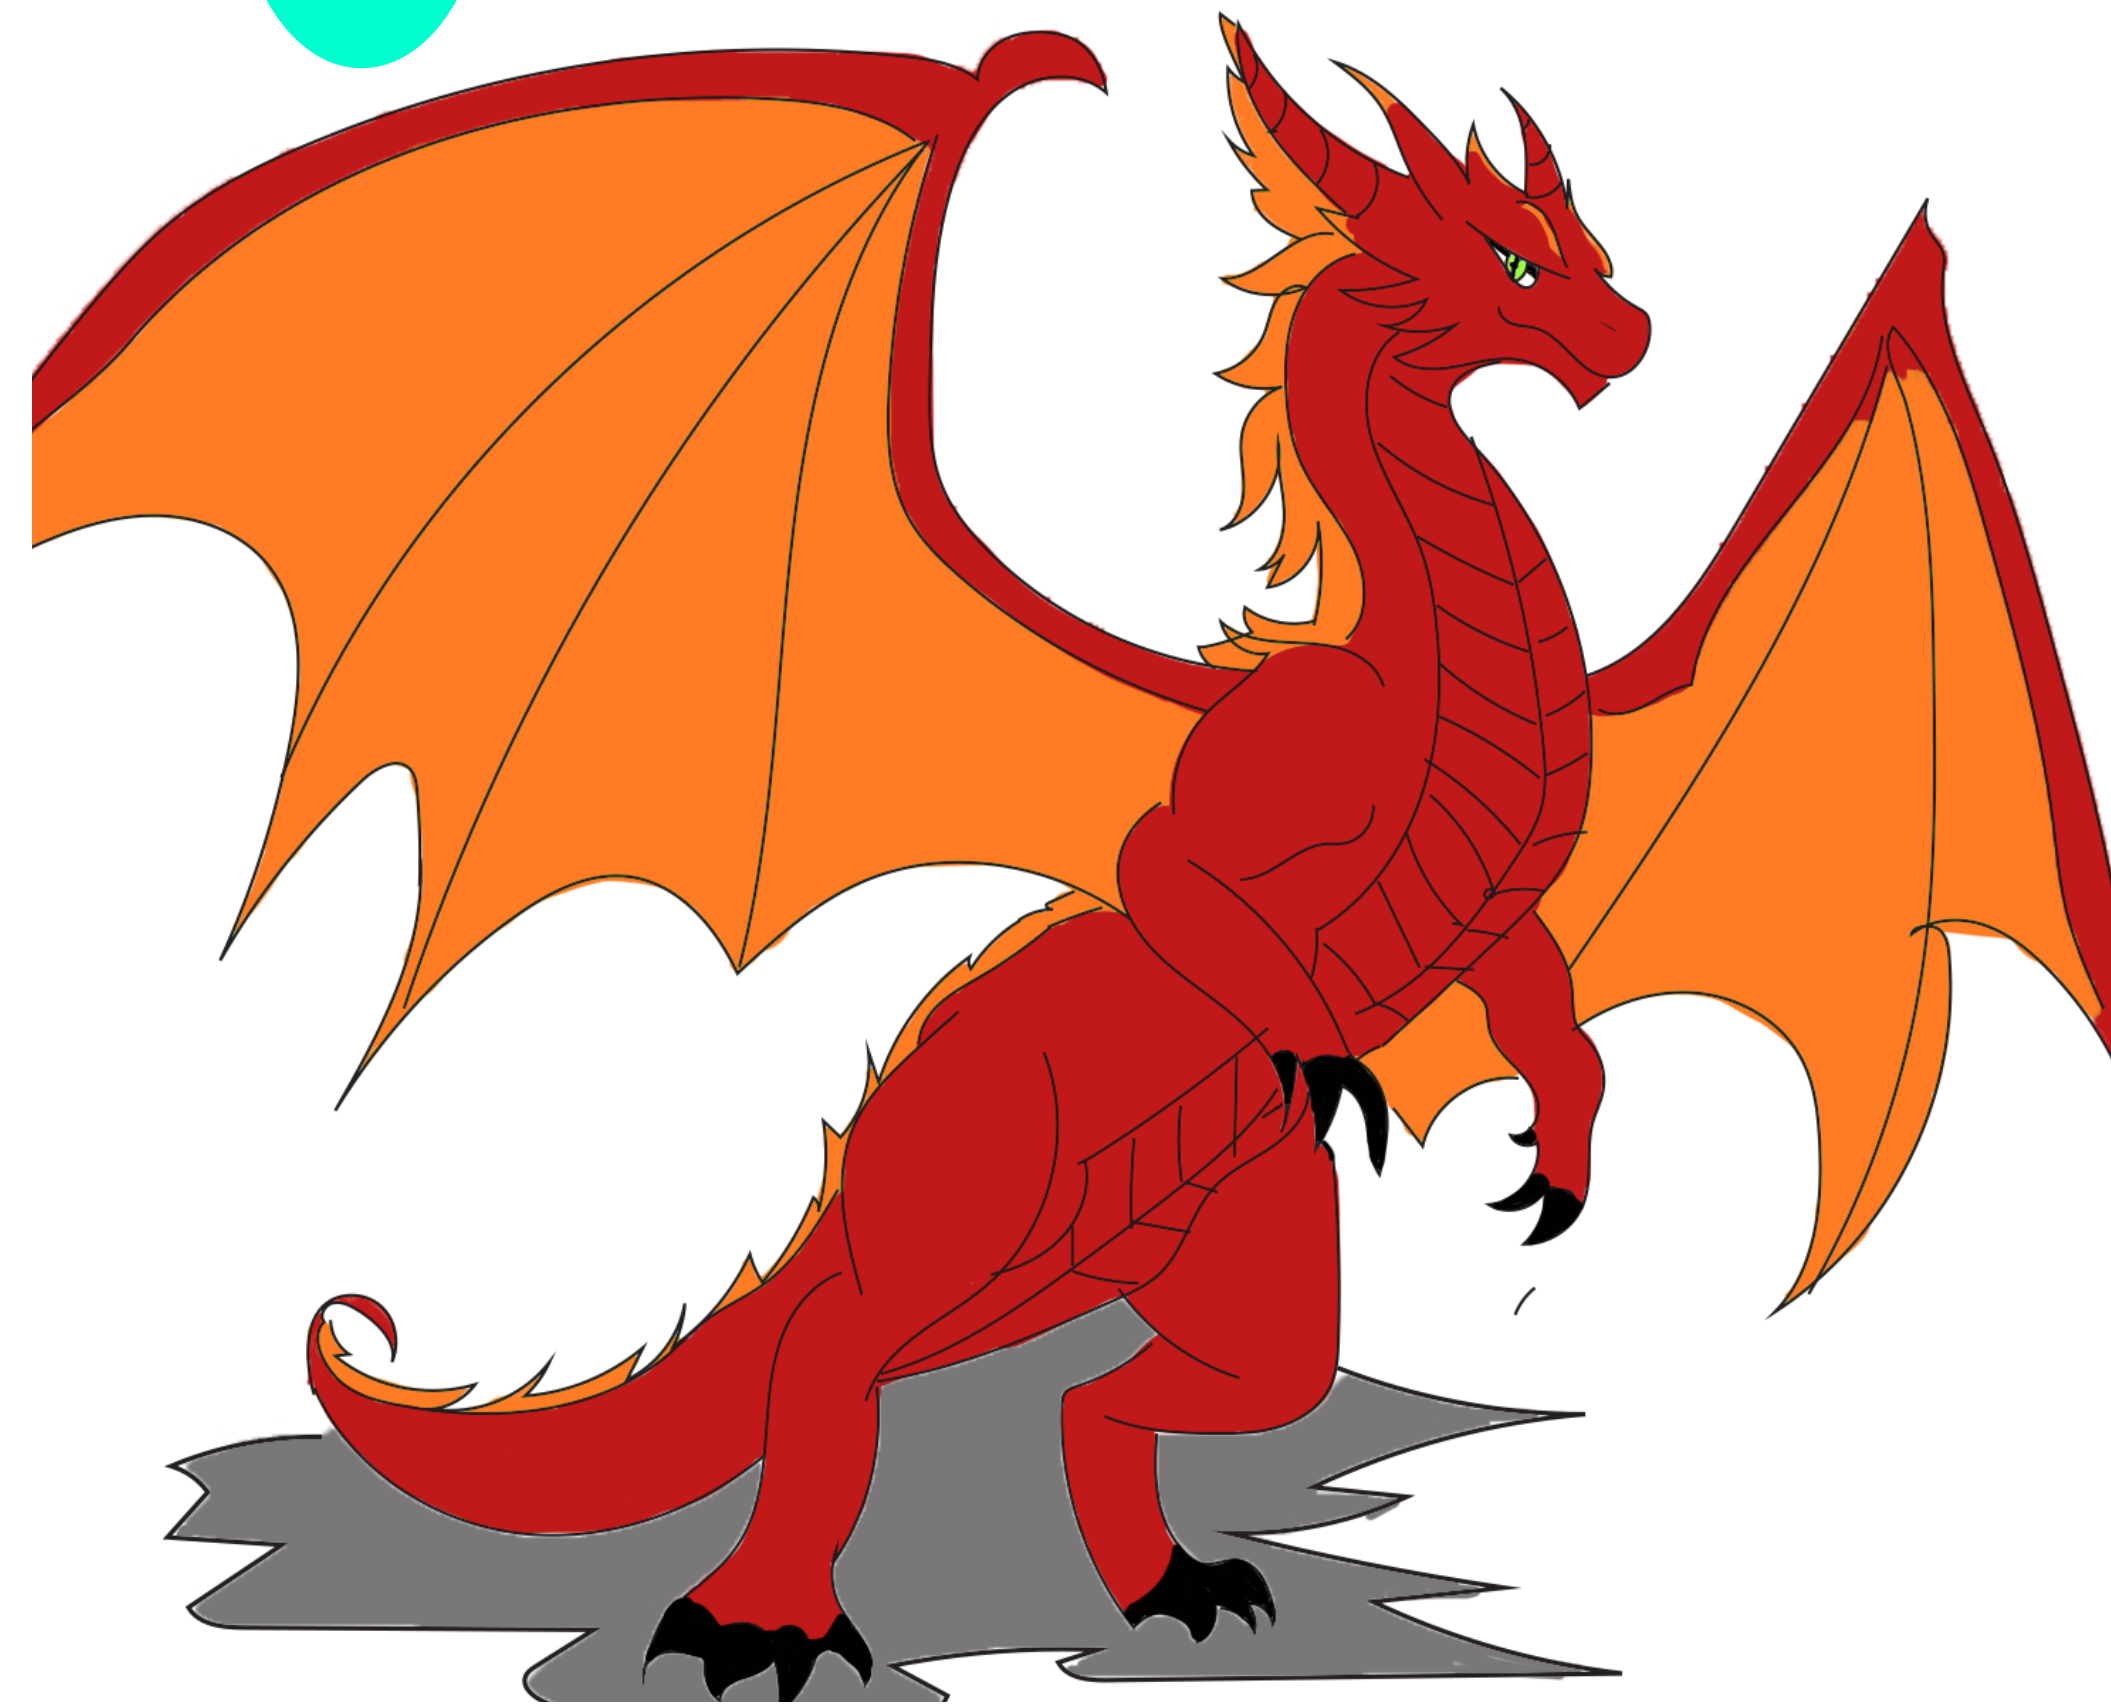

Adult Dragons
Spend a lot of
time hoarding
treasures and
moving to
new places

5

Ancient:

This is the later
stage of a Dragon
when it is strong
and powerful.
Some spend their
time fighting
and hibernating

6

Twilight

The final stage of
a Dragon before its
life comes to an end.
During this phase it
grows weaker and
starts losing its bright
colors, until it finally
closes its eyes and
returns to the earth
